Bauman Manufacturing: Manufacturing made easy.

About Bauman Manufacturing

Over 30 years ago Bauman Manufacturing started up in Waterloo Region in the small town of Conestoga, Ontario by Titus Bauman. Replacement chain for agricultural equipment was the main product manufactured. In 1974 custom stabling became a viable aspect of Bauman's product line. Stabling continues to be an important division of BML to this day. Two years later the "Ebersol" line of inclined conveyors was purchased. The purchase of Conestoga Chain in 1991 increased Bauman's market share and opened up the industrial supply market.

The need for quality replacement PTO parts enabled BML to add to their already diversified product list. Importing chains, made it possible for BML to supply other OEMs. Another component of BML is the custom manufacturing division where product is made to specifications.

In 2001 Bauman Manufacturing relocated to a new facility in Elmira. The vision is to be able to serve customers better in a newer and more accessible location.

Bauman Company Philosophy is to strive each way to continuously improve and be the best in quality and service. Building relationships between employees, customers and suppliers enables us to continue to promote teamwork because Bauman believes people are our most valuable asset.

Company profile

Employees: 28

Founded in: 1974

Field of activity: Manufacturing

Location: Ontario, Canada

Solution chosen

Enterprise SQL solution with WTS licenses

Custom add-on

Challenge

Using an obsolete DOS based solution for years, Bauman Manufacturing was seeking a customized business solution to manage their complex manufacturing processes.

Solution

Built on a Microsoft SQL Server database, known for its unequalled efficiency and reliability, the Enterprise SQL edition of Dynacom Accounting includes advanced functions such as multi-warehousing, advanced security management at the field level, a specialized payroll module, a point-of-sale module, a financial statement generator, the Synergy Designer (professional edition), the direct-deposit module, a CRM module, and also gives access to a wide selection of add-ons.

Benefits

By choosing the Enterprise SQL Solutions, Bauman manufacturing benefits from:

- Low cost licensing
- Quick installation / Easy implementation
- Custom assembly process
- Intuitive, easy to use interface
- Comprehensive follow-ups on costs of assemblies
- 3 time less expensive solution than any other comparable product
- Reduced development costs
- Rapid return on investment (ROI)
- Accessible, high-quality technical support
- Better overall management of the manufacturing process

About Dynacom
