

Human Resources

For a great number of companies people are the most valued asset but human resource management is often too time consuming. Dynacom wants to help you increase your business profitability by offering a fully integrated and automated human resource module that promotes effective benefits management through automation and control.

Benefits from the human resource manager include:

THE EMPLOYEES

- Accelerated communication within your organization (emails, letters)
- Control data access to your specification
- Information at your fingertips
- Attachment of faxes, emails or any other employee-related documents (cv, time sheet, certificate, etc.) to each employee file
- Improved planning and management of employee-related events (sick and vacation, raises, evaluations)
- Printed calendar of events
- Easier meeting planning
- Very cost effective
- Addition of the employee picture
- Use of customizable fields for greater flexibility
- And much more!

SCREENSHOTS

Outlook Integration

The Outlook integration allows you to access an employee's file directly from Outlook.
